

Fight against MRSA? Yes we can!

No matter what environment you are in . . .
MRSA is there!

What is MRSA

MRSA (Methicillin-resistant Staphylococcus aureus) is a particular strain of bacteria that is resistant to the antibiotic Methicillin. Staphylococcus aureus is a group of bacteria that lives on the surface of people's skin and inside the nose. In fact according to the Center for Disease Control (CDC), it is estimated that up to 30% of the general population - 90 million people in the US - carry these bacteria.

Why is MRSA a concern?

Approximately 12 million people receive treatment for skin infections caused by MRSA each year according to the CDC's Jeff Hageman. Staphylococcus aureus bacteria have been known to cause boils, abscesses, impetigo, septic wounds, heart-valve problems and toxic shock syndrome. In extreme cases, it can result in death.

Risk Factors

- Participation in contact sports (the bacteria can spread via skin-to-skin contact and through abrasions)
- Living in crowded conditions, such as in the military, on ships or in prison
- Age (children and the elderly are more at risk)

Prevent MRSA infection

- Wash hands and body thoroughly with soap and water
- Use Hand Sanitizer after hand washing or in between hand washings.
- Be sure to keep cuts and scrapes clean and bandaged.
- Avoid contact with other people's cuts, scrapes and bandages.
- Do not share personal items like towels, razors or utensils.
- Recent antibiotic use
- A compromised immune system
- Living with someone who works in a health care setting
- A recent hospitalization
- Certain invasive medical procedures such as catheterization, dialysis and feeding tubes

The Best Defense against the advances of MRSA is a Strong Offense!

Deb now offers 6 great products to help defend against MRSA.

CLEANSE

Appropriate hand cleansers to meet the specific cleaning needs and preferences of each workplace environment.

SANITIZE

Products that can be used without water to kill germs and provide a higher level of hand hygiene. Ideal for use at the work point, complementing normal washroom hand washing activity.

NEW! PANACHE Antibacterial Body Wash & Shampoo - 99.999% Effective against MRSA, germs & bacteria

Item Number	Description	Units Per Case	Shipping Weight lbs/Case
77034	4oz. Plastic Flip-Top Bottle	24	8
77027	ProLine® 1-liter Cartridge (33.8 fl. oz.)	8	20
77007	ProLine® 2-liter Cartridge (67.6 fl. oz.)	4	20

(K) AeroGreen™ Antibacterial Foam Soap (with Triclosan) - 99.99% Effective against MRSA, germs & bacteria

Item Number	Description	Units Per Case	Shipping Weight lbs/Case
